CURRICULUM SURVEYOR
FE Choices Automation

Curriculum Surveyor takes the hassle out of the FE Choices Learner Voice survey by automating and monitoring the entire process. As soon as a learner logs on to a College computer our software checks to see if they are eligible to take part in the survey and if they have not already completed it they are prompted to take part. If they are not able to respond at that time, the prompt disappears until the next time they logon.

It is also possible to add a shortcut to the automation process on their desktop which can launch the survey when they have time without having to restart their computer.

As soon as the survey is launched, the automation process automatically completes the pages asking for identifiable information including the College UKPRN, the learner's unique college number, their name and date of birth. At this point, the survey is displayed to the learner to complete in the traditional way.

After they reach the end of the survey and submit, a message is send back to Curriculum Surveyor noting that the learner has completed. This prevents them from being asked to take part again as well as allowing you to run reports on who has completed the survey.

You can then further analyse the breakdown of learners that have taken part using any custom demographic:

- ✅ Curriculum Area;
- ✅ Gender;
- ✅ Age Group;
- ✅ Ethnicity;
- ✅ Any demographic in your MIS database.

Age Group

80.93% ◼ 16-18 | 12.48% ◻ 19-25 | 6.59% ◻ Over 25

Gender

39.55% ◻ Female | 60.45% ◼ Male

Sector Skill Area

0.00% ◼ Agriculture, Horticulture and Animal Care	0.00% ◼ Languages, Literature and Culture
2.81% ◼ Arts, Media and Publishing	3.65% ◼ Leisure, Travel and Tourism
3.65% ◼ Business, Administration and Law	0.00% ◻ Not Applicable
13.74% ◻ Construction, Planning and the Built Environment	1.40% ◼ Preparation for Life and Work
0.00% ◼ Education and Training	15.01% ◼ Retail and Commercial Enterprise
37.45% ◼ Engineering and Manufacturing Technologies	0.00% ◼ Science and Mathematics
14.59% ◼ Health, Public Services and Care	0.00% ◼ Social Sciences
4.21% ◼ History, Philosophy and Theology	0.00% ◼ Unknown
3.51% ◼ Information and Communication Technology
